

# RAILROAD SERVICES

## ENVIRONMENTAL SOLUTIONS

### RAILROAD INDUSTRY

From an emergency response to accidents and derailments to safe and secure product transfers, BELFOR Environmental provides specialized services for the railroad industry.

BELFOR Environmental has responded to more than 100 derailments in the Rocky Mountain West and Pacific Northwest. Environmental cleanup of pollution and contaminated areas is handled by highly trained technicians who are experienced with the most difficult challenges on and around the rail. In these situations, we are contacted directly by Class 1 and Class II Railroads.

Through experience and unmatched resources, BELFOR Environmental works to respond quickly, remediate the problem and restore service to the rail.

24-HOUR EMERGENCY HOTLINE • 800-930-0011
